# MAIL AS IT'S MEANT TO BE

exclaimer™ mail utilities

Signatures, auto-replies and anti-spam as they were meant to be.

Put signatures and disclaimers on every email sent, even from smartphones, auto-adjust your auto-replies and any email based on rules and use anti-spam that stops spam - not mail.

With Mail Utilities on Exchange 2003, your mail can do more.

Flip over for more details on Mail Utilities or email [sales@exclaimer.com](mailto:sales@exclaimer.com) or call 01252 531 422.

exclaimer™  
Don't press send without it!

## Mail As It Should Be

Vary signatures and disclaimers for different teams – use one for sales, one for legal and one for both to use on internal mail.

Fill names and contact details in signatures with users' data from the Active Directory, you create a template, which is completed with every user's details to create their signature – instantly, for everyone.

Add images, text, fields and social media in the comprehensive editor – and hide fields automatically if there's no data for them, like a fax or out-of-hours number.

Let marketing and designers create and edit signatures remotely - without touching your Exchange server or tampering with your settings.

## Mail Made Easy

Use rules to get perfect auto-responses and total email control: adjust auto-replies based on inbound mail, alter your address on certain mail, monitor staff email and more – all automatically.

Adjust outbound mail too: show a team address, like 'sales@', on email to customers, but not colleagues or suppliers.

## Not Anti-Mail, Anti-Spam

Use global email traffic-analysis, not word-filtering, to stop spam: it knows your contact's email won't be near identical to millions of others – but spam will.

The Recurrent Pattern Detection engine (RPD) is from Commtouch, who have Google, Microsoft, HP and Fujitsu as clients – and over 20 years' experience.

## Trust Is Earned

37 million users worldwide trust our Microsoft Certified, award-winning products and 10 years' experience – in financial giants, technology leaders and local charities.

We're a Microsoft Gold Partner who have provided products to every industry, to companies of every size and to millions of customers with complex and unique needs.

Our products take more stress in testing than they ever will in your business: so whatever your needs, our software can match them.

*"It was easy to install, we had it up and running within minutes. I highly recommend this product to anyone"*

*Mike Schellenberg, Systems Analyst, Corporate Traffic*

## Step Up

Migrating to Exchange 2007/10 or SBS 2008/11?  
You're still taken care of.

Get Mail Disclaimers, Auto Responder and Exclaimer Anti-spam for the same features but even more power. SBS users can get them all in a half-price pack: SBS Suite.

If you upgrade, so do we.
